

# Level 3 or Higher Apprenticeship

## Guidance on Functional Skills

All Level 3 or Higher Apprenticeship standards require the Apprentice to have successfully completed Level 2 Functional Skills in both English and maths qualifications (or equivalent) in order to progress through Gateway to undertake End-Point Assessment.

### What happens at Gateway?

Gateway is an important milestone in the Apprenticeship journey and allows for the Employer, Apprentice and Training Provider to determine the readiness of the Apprentice to undertake End-Point Assessment. In doing so they will review if all Gateway requirements have been met, this includes the outlined English and maths qualifications.

An Apprentice on a Level 3 or Higher Apprenticeship Standard will have to evidence completion of Level 2 Functional Skills in English and maths.

If the Apprentice has an equivalent qualification, you can check which qualifications are accepted as a substitute to Functional Skills using the Annexes below.

### What does TQUK need as evidence of completing/attaining a qualification?

End-Point Assessment Organisations (EPAOs) are required to see evidence of an Apprentice completing the relevant Functional Skills qualification assessment where necessary in order to verify Gateway requirements have been met and allow progression to the End-Point Assessment stage.

TQUK will need to see evidence from the Awarding Organisation with whom the Apprentice undertook their Level 2 Functional Skills qualification in order to confirm that they have passed the qualification.

In this instance, TQUK will accept:

- Certificate confirmation that **BOTH** Level 2 qualifications in English and maths have been completed from the Awarding Organisation
- Email confirmation that **BOTH** Level 2 qualifications in English and maths have been completed from the Awarding Organisation
- Letter confirmation that **BOTH** Level 2 qualifications have been completed from the Awarding Organisation
- Screenshot confirmation that **BOTH** Level 2 qualifications in English and maths have been completed from the Awarding Organisation

# Level 3 or Higher Apprenticeship

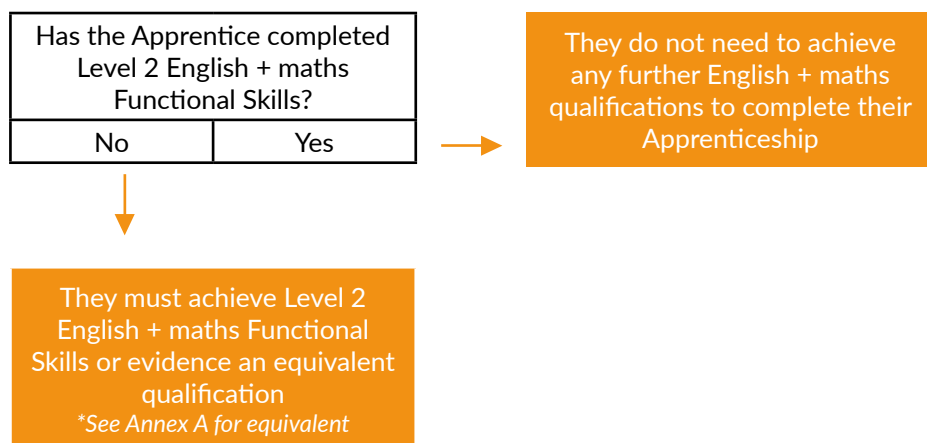

## Guidance on Functional Skills

I've completed a Functional Skills qualification, but not received my certificate in time for the Gateway meeting.

If the Apprentice has undertaken and completed their required Functional Skills qualifications close to the Gateway meeting, it is quite normal for an Apprentice to have not received their official certificate to state and evidence their completion in time for passing Gateway.

In this instance, TQUK will accept:

- Email confirming results and confirmation that **BOTH** Level 2 English and maths Functional Skills have been completed from the Awarding Organisation
- Letter confirming results and confirmation that **BOTH** Level 2 English and maths Functional Skills have been completed from the Awarding Organisation
- Screenshot confirming results and confirmation that **BOTH** Level 2 English and maths Functional Skills have been completed from the Awarding Organisation
